

55,555 Artifacts from the Swann Site, Calvert County, Maryland

Andrew J. Webster, Anne Arundel County Cultural Resources Section

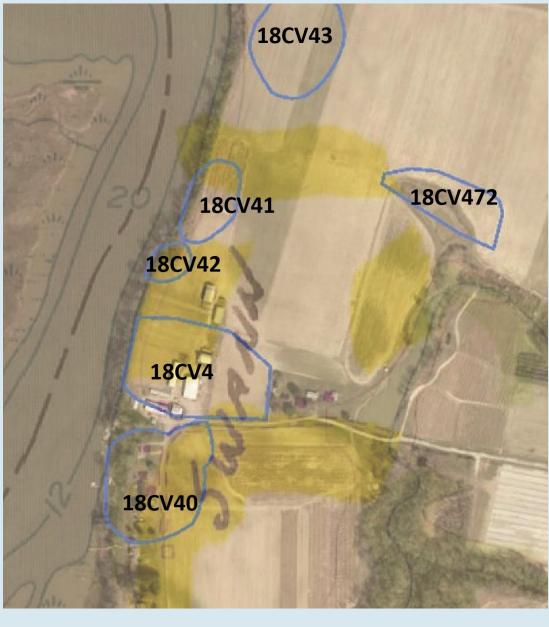

The Robert Ogle Collection

- Over 160,000 artifacts from 154 archaeological sites in Central and Southern Maryland – 150 boxes of material
- Donated to Anne Arundel County by the late surveyor and avocational archaeologist Robert (Bob) Ogle
- Cataloged with grant support from the Maryland Historical Trust.
- 30 new sites identified; updates to over 120 known sites
- Primarily native lithics/ceramics, also includes colonial-period artifacts

Ogle Collection Area Swann

The Swann Site(s)

- Largest site assemblage in the Ogle Collection with 55,555 artifacts
- Now officially six sites; Ogle collected as a single site
- Ogle excavated Swann, but provenience information has been lost.
- Overlapping sites: 18CV4 (Native American: Paleo Woodland) and 18CV40 (historic domestic occupation, c. 18th century)

A portion of the Ogle Collection on display

in Mr. Ogle's home

Overlay of official site boundaries (blue) with Ogle's approx. collection area (yellow)

 Ogle believed this to be the location of the Tasker family plantation.

The location of Ogle's collection area and the

Swann site within the state of Maryland

He reportedly discovered tombstone fragments bearing the Tasker name and a spoon with initials.

"This guy was rich. Thomas Tasker was the first one on the property, followed by Benjamin Tasker. John followed him."

-Robert Ogle, interviewed by Wayne Clark, 1998

Lithics

- N = 3,931
- 246 points including 2 Paleo points
- All periods of Archaic and Woodland represented
- Ground stone tools
- 1,393 pieces of gunflint (English, likely ballast, and French, complete)

Historic Ceramics

- N = 17,290
- Colonial-era is most common, incl. European stoneware, Chinese porcelain, and coarse earthenware.
- Post-colonial period represented by refined earthenware (n = 2,284) and domestic stoneware (n = 853)

Rhenish stoneware

Glass

- N = 8,220
- Olive bottle glass (n = 5,653) including 1,431 wine bottle bases
- 602 aqua bottle fragments
- 57 beads with 13+ decorative styles, likely Venetian trade beads

Glass beads

Tobacco Pipes

Bore Diam.	Peak Use	Pipe Count
9/64"	1590-1620	1
8/64"	1620-1650	25
7/64"	1650-1680	468
6/64"	1680-1720	3,990
5/64"	1720-1750	8,772
4/64"	1750+	1,837
Total pipe fragments		15,093

Metal

• N = 5,965

Tableware (n = 33)

Tools (n = 22)

- 4,971 iron nails, including 4,218 wrought nails, = large 17th-18th century structure(s) on the site
 - Leather ornaments (n = 12)
- Buttons and buckles (n = 130)
- Horse furniture (n = 11)
- Hardware (n = 107)
- Bale seals (n = 2)
- Shell casings (n = 47)
- Coins: 1680 shilling, possible Spanish coin

Interns Harrison Biggs and Kari Maygers sorting iron nails

Calling All Researchers!

- The collection is cataloged and awaits your specialized analyses!
- Ideal for theses, dissertations, and collections research
- Contains nearly all artifact classes and time periods
- Possible topics include settlement patterns, lithic raw material preferences, comparative studies, & material culture research.
- Contact the author at pzwebs00@aacounty.org
